

## 1<sup>st</sup> EU-China Health Summit on Medical Innovation and Technology Transfer:

### *Blueprint for a joint mission in Aging*

Co-Organized by EFMI and CMIA in conjunction with MedInfo 2019, Lyon, France, 25 August 2019, 9:00-18:30.

The first EU China Health Summit aims to prepare the ground for the blueprint of a joint mission that will redefine the role of health informatics in Aging societies hampered by multimorbidity:

- Facilitate policy dialogue and influence priority areas for funding joint EU-China R&I programs
- Highlight EU-China innovation cooperation and technology transfer in the Health sector
- Stimulate collaborative mission-oriented EU-China Health R&I initiatives

Outcome of the summit will be a joint vision for the blueprint for a joint mission on Aging.
